New feedback reported by Michael [redacted] r
(michael.[redacted]@poettinger.at)

PDF won't open on iPad

When I click on the PDF button nothing happens. The PDF is not opening in a browser, like on the PC, and it is not downloaded to my files.

Max Barbet commented on [PDF won't open on iPad](#):

Hello Michael, By default, it seems that Safari is blocking pop-ups. Could you please ask for your team to go to the settings, enable pop-ups on Kolus and try again ? Have a great day,
